

NU HORIZON GENETICS

MANAGEMENT CONSIDERATIONS

■ Irrigated ■ Dryland ■ Both

A broadly adapted variety combining higher yield potential with earlier maturity. An excellent replacement for Freeman and Ruth in your lineup.

Get the most from this variety with fungicide applications to guard against stripe rust, leaf rust, and fusarium head blight when disease pressure is present.

WINTER WHEAT

NE Daybreak

Yield with Early Maturity

- **New variety** for Fall 2026, formerly known as NE16562 in variety trials.
- **Delivers exceptional yield potential** across diverse growing conditions.
- **Early maturity** helps stay ahead of late-season heat stress
